

# Faculty Quick Reference: Moodle Activities & Engagement Benefits

Activity	Engagement Benefit
Forum	Encourages discussion, reflection, and peer-to-peer learning.
Chat	Provides real-time conversation for quick Q&A or reviews.
Wiki	Supports collaboration by co-creating shared documents.
Database	Builds a class collection of resources and examples.
Glossary	Reinforces terminology by having students define key terms.
Assignment	Allows submission of work with feedback and grading.
Quiz	Offers practice and assessment with instant feedback.
Workshop	Facilitates peer review and critical evaluation of work.
Lesson	Guides students through interactive, adaptive learning paths.
Choice	Captures quick polls, decisions, or sign-ups.
Survey	Uses standardized instruments to gather insights.
Feedback	Collects custom student input and reflections.
H5P	Adds interactivity like drag-and-drop or branching scenarios.
SCORM	Delivers multimedia e-learning modules with tracking.
Group Choice	Lets students self-select into groups.
Scheduler	Allows students to book office hours or meeting times.
Book	Presents structured course content like a digital textbook.
Board	Curates and shares digital content; supports discussion, collaboration, and community building.

*Tip: Mix and match activities to balance content, collaboration, and assessment.*
